RE: Health alert update (2)

March 5, 2020

Dear Region 16 Community,

As a follow-up to my letter dated March 2nd, regarding coronavirus precautions and recommendations for staff and families, I am sending out additional information to keep everyone informed:

- The schools will begin a 2nd round of the disinfection process over the weekend through overtime provided to our custodians (see attached product description);
- We expect the arrival of 2500 alcohol free hand sanitizers that we will hopefully distribute to students and staff on Monday March 9th;
- We have spoken to the bus company, All Star Transportation; they assured us they will be thoroughly cleaning and disinfecting their busses this weekend and purchasing hand sanitizers for the driver and students to utilize while on the bus;
- Region 16 District Office had been in constant communication with Chesprocott as well as school based nurses for guidance and updated information;
- We are also collectively evaluating if we will allow the LRMS 8th grade class to travel to Washington DC in April and the LRMS 7th grade to travel to Boston in May; more information and discussion will follow as the planned trip gets closer.

Please monitor your child for any symptoms of illness, see a medical professional as needed, and keep your child at home if there is fever, stomach flu, or other signs of a virus. This care as a community will help us all stay healthier. We appreciate your help.

We also will continue to share updates on any additional steps we take to help keep our community safe. If you have any questions or concerns, please do not hesitate to reach out to me, Steve Martoni, Director of Facilities, or one of our school nurses.

Respectfully,

Michael P. Yamin
